

## Example LC system pressure traces

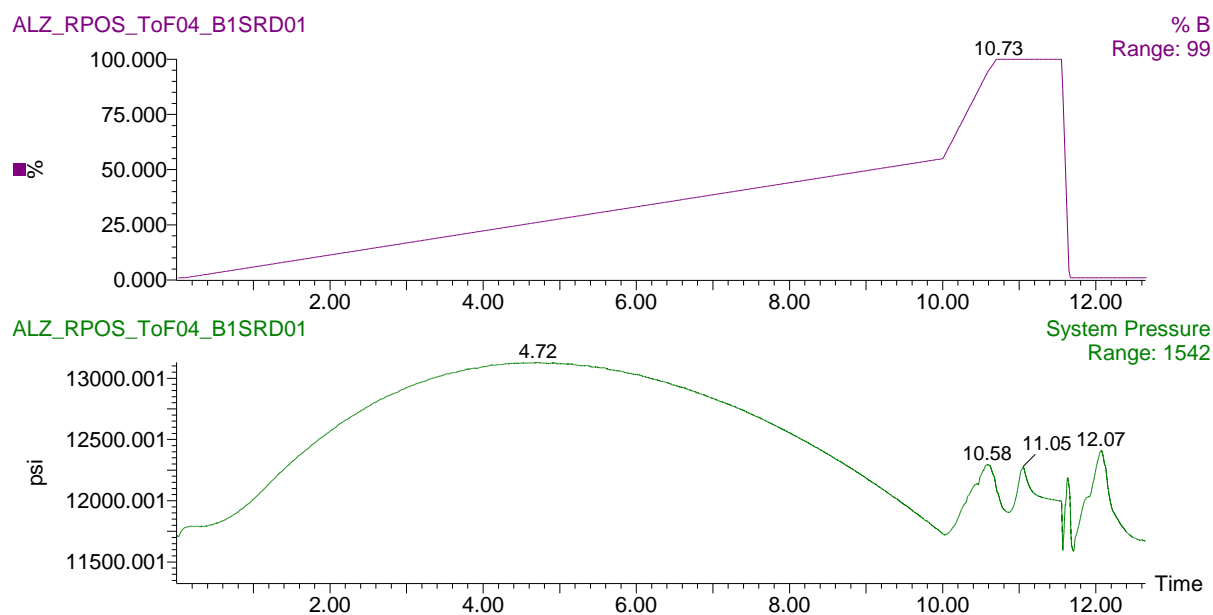

Figure 1. Example reversed phase chromatography (small molecule profiling) gradient (top, in %B) and system pressure (bottom, in psi) traces.

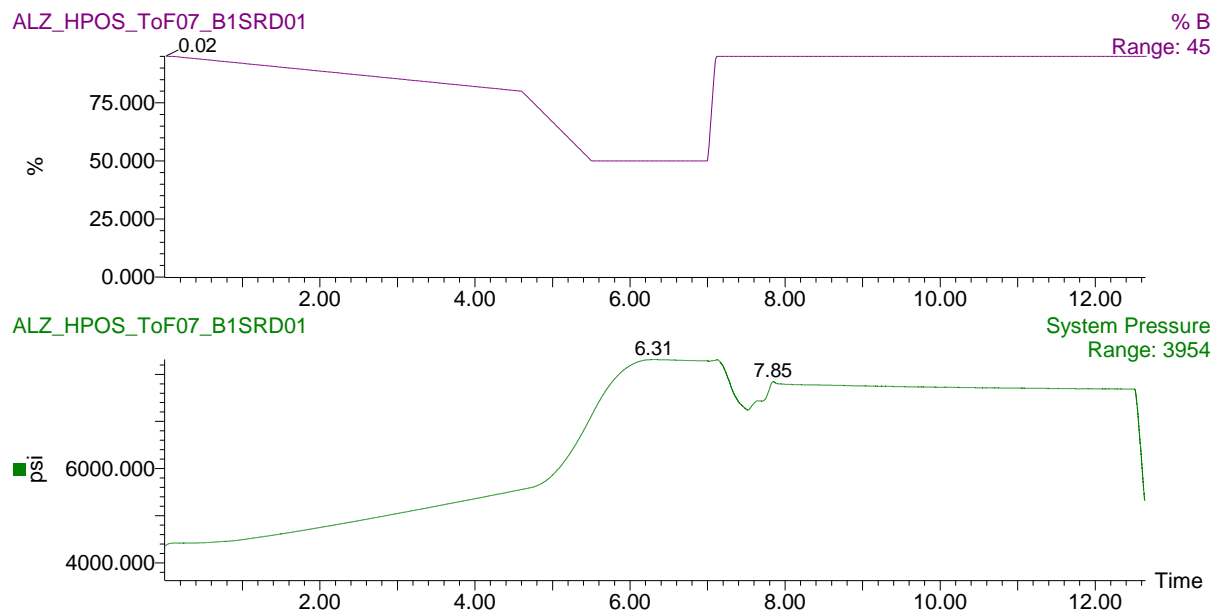

Figure 2. Example hydrophilic interaction liquid chromatography gradient (top, in %B) and system pressure (bottom, in psi) traces.

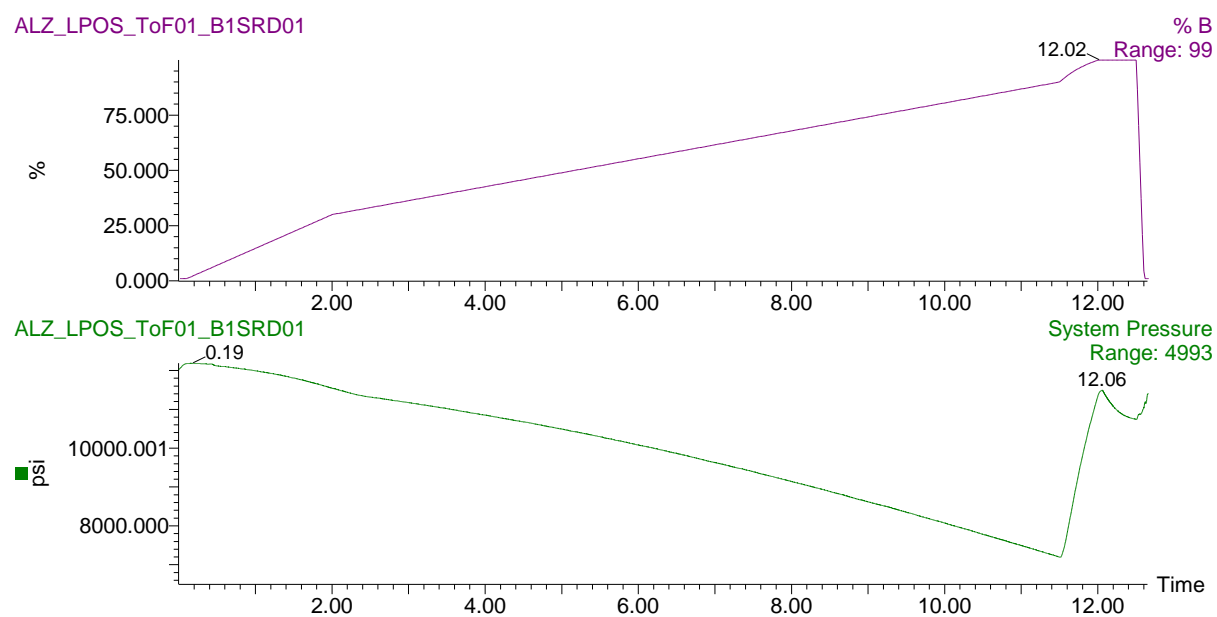

Figure 3. Example reversed-phase chromatography (lipid profiling) gradient (top, in %B) and system pressure (bottom, in psi) traces.
